In this context, personal data concerning the Insured (or concerning the parties or interested parties to the contract) may be processed by any authorized person working within the Insurer's services and the Broker. This data may also be intended for the authorized personnel of the organizations directly concerned by fraud (other insurance organizations or intermediaries; social or professional organizations; judicial authorities, mediators, arbitrators, court officials, judicial officers; third party organizations authorized by a legal provision and, where applicable, the victims of fraud or their representatives).

Particular clause relating to regulatory obligations.

This withdrawal is valid for the future and does not call into question the lawfulness of the processing already carried out. It is likely to render the execution of the contract impossible without being a cause for termination recognized by insurance law. However, the withdrawal of data necessary for the execution of the contract and for the control of the relevance of the reciprocal commitments, is likely to make the execution of the contract impossible, if these data participate in the consent of the parties to the contractualization. In such a case, this impossibility of performance may be a contractually defined cause of forfeiture of warranty.
- ✓ Right of opposition: The Insured may oppose the processing of his/her personal data, in particular concerning commercial prospecting at the address below.
